COMMENTS

SAV International the \$400,000 record-selling selection of the 2013 Schaff Angus Valley Sale for Herbster Angus Farms, Falls City, Nebraska, USA. He represents everything we look for in an ideal breeding bull.

He is backed by five consecutive generations of Pathfinder dams. His natural muscle shape, flawless structure and distinctive breed character have made him a favorite of astute cattlemen from around the globe. The calf reports for the 2014 calf crop are in and the International progeny have been standouts since birth. They are explosively muscled, with an impeccable phenotype. They are great hiped, big footed and stylish.

Distributor: Alta Genetics Australia
