### COMMENTS

Ascot Western spur is Red factor and DNA tested Homozygous polled. He was top priced bull at our 2014 sale but we have retained semen rights to him.

He is extremely long and mobile bull. He is top of nearly every EBV for growth and carcass weight but still retains positive calving ease and positive fats. His sire is one of the top sires at Ascot and his dam is very large capacity red factor cow that was Supreme champion exhibit at the Sydney Royal show in 2013.

- Growth: Top 1% 200, 400, 600 day weights and carcass weight.
- Fertility: Top 5% scrotal size
- Indexes: Top 1% Northern Terminal Index. Top 10% Export Index.
