SALE WITH LIVE VIDEO STREAMING

---

**Firstly, thank you everyone who has supported our previous sales, your support is genuinely appreciated.**

---

We hope the new Year has brought some rain to your area. The cattle market remains strong and should continue its strength into the foreseeable future by all reports.

For our inaugural and hopefully annual Autumn sale we are pleased to present 50 bulls and approx 70 Joined heifers. We will be having our usual annual bull sale on 29th September with approximately 110 bulls.

With the market forecast to stay strong or improve even further bull prices are also tipped to rise so buying earlier in the year could mean some savings on later sales.

Our sale bulls are similar to the bulls presented in our Spring sale in September last year and exhibit superior Muscle, bone and softness with good hair and skin type.

We continue to use both science and visual selection criteria in our breeding programs for both the Angus and Charolais breeds so the bulls should have strong commercial performance and correct confirmation which allow them to function well. We fully measure and record birth weights, 200, 400, 600 day weights, fat and marbling scans on all of our cattle so our EBVs are as accurate as possible.

In summary our main target traits continue to be temperament, calving ease, early weight for age, fertility, finishing ability and eating qualities – an MSA targeted approach.

## ANGUS SALE BULLS

The 25 Angus bulls are very well grown bulls with ideal muscle, bone with slick coats and are aged between 18 and 20 months of age. Their average weight is approx. 750kgs.

At this weight and age they are ready to go to work now or being reasonably young could be acclimatised to your environment and used later in the year and still be young bulls. They are early to mid maturity pattern bulls.

Some of the high performance reference sires represented in these sale bulls include: Millah Murrah Hercules the \$70,000.00 Australian top priced bull in 2014; Ascot Hallmark (sire of our \$70,000.00 sale topping bull in our last years sale, his 7 sons averaged \$19,000.00); and Millah Murrah Highlander G7 (his sons were standouts in our last years sale and sold to \$16,000).

## CHAROLAIS SALE BULLS

The 25 Charolais bulls, majority polled and with some de-horned bulls. As with the Angus bulls they exhibit ideal muscle and bone but retain the softness that Ascot has been striving for with our 'Positive fat' breeding program. Being aged between 18 and 20 months of age with average weight being approx. 800kgs – they are ready to go to work now or buy now and acclimatise and use later in year. Remember the earlier bull sale averages are usually lower than in full bull selling season in Spring.

These bulls are predominantly medium framed, early to mid maturity pattern bulls with 400 day weight being our target weight EBV. We have been pleased with their doing ability and with their lighter skin colour appear to handle the hotter conditions better.

Reference Sires represented in the sale bulls include; Ascot Doc SilverG100E (this bull was sold to Rosedale Charolais for \$20,000 in our very first sale and we continue to use semen in him); Ascot Goldrush (sire of many of our top selling bulls with sons selling to \$16,000); and Ascot Galaxy (calving ease sire with Sons selling in our last sale to \$10,000).

## JOINED HEIFERS

For the first time we are auctioning some of our excess heifers from both breeds.

We will present approx. 65 joined heifers and approx. 12 unjoined heifers. All are registered stud heifers excess to requirements. They will be suitable for purchase as commercial heifers but registration can be transferred if required for stud use at an extra cost of \$200 plus GST per animal above auction price.

## ANGUS HEIFERS.

Approx 35 joined Angus heifers to be offered varying from 16 months to approx. 30 months. Some heifers were held over and not joined earlier due to drought conditions.

Heifers are by the following top reference sires: the \$91,000.00 Temania Emperor; Temania Berkley; the \$54,000.00 Irelands Gapsted; Millah Murrah Highlander G7 (second top priced bull at Millah Murrah sale that year; the \$70,000.00 Millah Murrah Hercules bull; Ascot Hallmark; and Texas Global.

Heifers were all AI'd to either Millah Murrah Highlander G7 (second top priced bull 2013) or Clunie Range Juno (top priced bull at their 2015 sale at \$24,000.00).

All heifers were all de-pastured to back up the AI program with Clunie Range Juno. A small number of unjoined Angus heifers also to be offered.

## CHAROLAIS HEIFERS

Approx 30 joined registered heifers, majority polled including some DNA tested homozygous polled heifers on offer. Heifers range from approx. 16 months to 30 months of age.

Reference sires represented include: Ascot Eldorado; Moongool Gunsmoke; Palgrove frost; Ascot Galaxy; Ascot Goldrush; Palgrove Headline; Paringa Western Spur; Advance Domino; Palgrove Justify; and Harvie Redemption.

Heifers were all AI'd to: Paringa Free Lunch K330E, Paringa Western Spur D196E or Ascot Galaxy G131E. All of these joining sires are Homozygous polled (so all calves should be polled or scurred) and calving ease specialists. All heifers have been backed up after AI to Paringa Free Lunch K330E (Homozygous polled).

Approx 12 unjoined Charolais heifers will also be offered for sale.

## In summary all bulls and heifers have had the following treatments:

- 3 germ bled for tick fever; • 3 day sickness vax; • 7 in 1;
- Pesti virus; • Bulls have had 2 doses vibrio; • Bulls have been vaccinated for botulism.

In addition all bulls have been semen tested, vet checked and guaranteed. All sale bulls and heifers are fully registered and breedplan recorded. Weights of heifers and bulls will be advised prior to sale along with fat scans and IMF scans for bulls.

## Auctions Plus will operate at the Auction with Live Video streaming as per our last sale.

PLEASE CONTACT US IF YOU WOULD LIKE A HARD COPY CATALOGUE POSTED TO YOU. On-line Catalogue will be available from our website four weeks before the sale. Supplementary sheets with weights and scans and preg-test results will also be on website one week before sale. Contact us or your preferred agent If you would like to inspect bulls or heifers before the sale. Sale day inspections start at 10am. Sale starts at 1pm – Queensland time, with bulls first.

We look forward to catching up with you at or before the sale. Complimentary morning tea, lunch and drinks will be provided at the sale.

## Yours Sincerely,

Jim and Jackie.

Ascot Lionheart L305 - Ascot 2016 Bull Sale top priced Bull at \$70,000 by Ascot Hallmark. Sold to Ben Nevis Angus and Trio Angus.

4% Commission to outside Agents

# SALE INFORMATION

## SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 1pm Qld time on Friday 24th March 2017.

Bulls may be inspected from 10.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

## SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

## REBATE:

4% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

## PHONE BIDDING:

*We have full mobile phone coverage at the sale.* If you intend purchasing over the phone, please contact the selling agents to reserve a line.

## GST:

All animals are sold **exclusive** of GST.

## INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Elders Insurance at the sale venue.

## AUCTION PLUS

This year we will have live video and audio streaming all done through Auctions Plus. Please register 24hrs before the sale.

## REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

## CATERING:

Please join us for complimentary morning tea, lunch and after sale drinks.

## PHYSICAL EXAMINATION OF BULLS

All bulls offered for sale will be vet checked near sale date and only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- Semen Testing
- Physical examination of feet, legs, gait, head and joints.

## TEMPERAMENT

The bulls have been handled with horses, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

## HEALTH QA:

The bulls are ready for immediate use. We have treated them as follows:

- Double vaccinated them with Vibrovax
- Vaccinated for Tick Fever
- Double Vaccinated them with 7 in 1
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale
- Botulism

## BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

## WARRANTY

### THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

### THE VENDOR WILL EITHER:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

### WHERE:

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

### THE PURCHASER ACKNOWLEDGES THAT:

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

## HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

## VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

## DELIVERY

Agents Elders, Landmark and Colin Say & Co will be handling the organisation of delivery of Sale Cattle. Free freight is offered to major centres Queensland and NSW

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

## SEMEN RIGHTS

All bulls sell with 80% semen marketing rights attached. In doing this we leave the great majority of any potential semen revenue in the buyer's hands.

However, by keeping a 20% share, it gives us, as the breeder and party with the greatest knowledge of the bull's background, a seat at the table, in any possible negotiations with semen companies and other parties.

Should any purchaser wish to operate at the sale on the basis of 100% semen ownership, please contact the vendor at least 24 hours prior to the date of the sale.

Under all circumstances, the vendor retains the right to collect up to 200 straws of semen from a bull in the sale for use within herd. Any semen collection would be at vendor's expense and purchaser's convenience.

# SELECTING GENETICS FOR IMPROVED MSA

**The different components affecting whether carcasses meet MSA compliance specifications are all influenced to some extent by genetics and can be improved through the selection of animals with appropriate genetics.**

## 1. MEAT COLOUR & PH

Dark meat colour (ie. over an AUSMEAT score of 3), commonly referred to as 'dark cutting'; is associated with low muscle glycogen levels in the live animal prior to slaughter, thus resulting in an unappealing product for consumers. Similarly, if there is only a small amount of muscle glycogen present pre-slaughter, pH may not decline to the required level.

Maintaining glycogen levels pre-slaughter is consequently of utmost importance and can be achieved by minimising stress and/or activity both on-farm and in the lead up to slaughter. Cattle with poor temperament have an adverse effect on the cattle around them, all of which results in higher pH carcasses and a higher incidence of dark cutting.

Selection for improved temperament can be achieved by ensuring that all animals used in a breeding program have acceptable temperament, and when available, selecting animals with superior Docility EBVs. Docility EBVs are estimates of genetic differences in the percentage of an animal's progeny that will be scored with acceptable temperament, with higher EBVs associated with superior temperament. For example, an animal with an EBY of +20% would be expected to on average produce a greater percentage of progeny that have acceptable temperament than a bull with an EBY of -2%.

Research has also demonstrated that animals with higher muscle content, as defined by size of carcass eye muscle area (EMA) adjusted for hot standard carcass weight, is strongly associated with reduced incidence of dark cutting. A reduction in the incidence of dark cutting in high muscled cattle also complements the other advantages of muscular cattle, such as increased retail beef yield and processing efficiency.

Selection for increased muscle content in a standard weight carcass can be achieved by selection of animals with higher EMA EBVs. EMA EBVs are estimates of the genetic differences between animals in eye muscle area at the 12/13th rib site in a standard weight steer carcass, with higher EBVs associated with larger eye muscle area. For example, an animal with an EMA EBV of +4.4 mm would be expected to produce calves with larger eye muscle area than an animal with an EMA EBV of + 1.0 mm, relative to carcass weight.

## 2. RIB FAT THICKNESS & FAT DISTRIBUTION

Rib fat thickness is the measured depth of subcutaneous fat over the quartered rib site between the 5th and 13th ribs.

A covering of fat is needed to protect the high value primal cuts from rapid chilling, which can cause toughening, and to enhance eating quality and appearance.

In addition to minimum fat levels, a key requirement for all beef markets is to have adequate cover over the high-value cuts along the loin (back) and rump. MSA requires carcasses to have adequate fat coverage over all major primals, with an area of inadequate fat distribution not being greater than 10cm x 10cm over each individual primal.

Selection for adequate rib fat and fat distribution can be achieved by selection of animals with appropriate Rib and Rump Fat EBVs. Rib and Rump Fat EBVs are estimates of the genetic differences between animals in fat depth at the 12/13th rib and P8 rump site respectively in a standard weight steer carcass, with higher EBVs associated with greater fat depth. For example, an animal with a Rib Fat EBV of +0.4 mm would be expected to produce calves with more fat than an animal with a Rib Fat EBV of -0.6 mm, relative to carcass weight.

## TAKE HOME MESSAGES

Whilst many of the factors that affect the eating quality of a carcass and its suitability for MSA programs are heavily influenced by animal handling and management, many factors are also influenced by the genetics of an animal.

Selection of animals with acceptable temperament, higher Docility EBVs, higher Eye Muscle Area EBVs and appropriate Rib & Rump Fat EBVs can improve MSA compliance, whilst selection of animals with higher IMF EBVs to increase marbling score, higher Growth EBVs to reduce ossification score, higher Rib Fat EBVs to increase carcass fatness and higher Carcass Weight EBVs to increase HSCW at the same maturity, will increase MSA Index values and thus increase the eating quality of your herd.

To further discuss breeding for MSA programs, please contact staff at SBTS and TBTS. More information about Meat Standards Australia is also available from the MLA website

[www.mla.com.au](http://www.mla.com.au)

# WORKING AGE YEARLINGS BECOMING POPULAR

---

**In Australia and other parts of the world, there is a trend towards using bulls at yearling age (12-18 months). This allows introduction of superior genetic material into herds a year earlier than normal, resulting in faster genetic improvement.**

---

---

**Their introduction has the potential to allow breeders to extend the working lives of bulls by a year or more, lowering the bulls costs of a herd. This extra workload is achieved at the time in their lives when they are young, lean, fit and exuberant. They are free of the structural problems that beset older bulls.**

---

---

**Yearling bulls have much to offer, both genetically and financially. However, poor management can reduce calving percentages, compromise animal welfare and limit their lifetime potential. In order to harness the immense potential of yearling bulls, special management is required-their age and physiological status demands it.**

---

## SUMMARY

In order to harness the potential of yearling bulls there are three crucial management requirements:

1. Join them either alone or with bulls of the same age.
2. Join yearling bulls for 6-8 weeks (2 cycles) only, then spell them for at least 3 months.
3. After removing yearling bulls from their joining groups, place them on high quality feed in specially prepared paddocks.

Experience has shown that many young bulls have been ruined because they have been joined for too long and under conditions that have challenged their survival. If, at any stage, yearling bulls drop below 2 score condition, they should be withdrawn from their joining group immediately.

# HOMOZYGOUS POLLED EXPLAINED

## THE ASCOT CHAROLAIS POLLED FOCUS

Ascot is devoted to breeding Charolais cattle that are polled but still retain the correct phenotype, carcass qualities and fertility. Polled cattle have sometimes been criticized for losing bone, phenotype and carcass quality and perhaps rightfully so as in the past some breeders may have just bred the polled gene and disregarded the other important traits.

---

**At Ascot we are endeavouring to have the best of both worlds. Great polled cattle.**

---

Over the last couple of years we have made some real headway in this and through testing many of our cattle for the HOMOZYGOUS polled gene at the University of Qld we have found some lines or combinations that produce this gene more readily.

For those of you who are not familiar with the term Homozygous polled it means in summary animals that test with a very high percentage of this gene (say 90% and above) have a very high probability of throwing nearly all calves that are polled or perhaps scurred. This is even if the other parent is horned. The gene once the animal has it is that strong that it can over ride the other parent.

## THE ADVANTAGES OF HAVING POLLED ARE FAIRLY OBVIOUS BUT INCLUDE:

- Time and stress saving (for both animal and owner) not having to dehorn
- Reduces bruising and improves profitability
- Appeases the animal liberation movement
- Attractive cattle at sale time improving demand.

# **ANGUS HEIFERS** **● LOT 51-69 ●**

**ANGUS SALE HEIFERS**

# • ANGUS HEIFERS LOT 51-69 •

- The older 'K' heifers in the sale were not joined at their normal age due to drought conditions last year & were held over till now through no fault of their own. The majority of sale heifers have been joined to calve at just over 2 years old as we normally do in the stud.
- All heifers have been 3 GERM BLOODED to suit tick areas.
- The first 9 heifers have photos for the express reason to show you a sample of the whole draft of heifers.
- Lots 1 to 9 are being sold individually & then after Lot 9 they are being sold in pens of 3 except Lot 68 which is a pen of 2.
- All heifers were AI'd on the 13 th Jan & put with back up bulls 14 days later. Pregtest details will be known before the sale. Due to the extreme heat In the last 2 months many heifers may not have taken but will still be sold. For any heifers within the next 12 months that prove not to breed we will refund the purchase price less salvage costs ( Evidence must be shown of non breeding ability & disposal).
- The AI joining sires we have used for the Angus heifers are shown on each lot number & include: Clunie Range Juno J173 ( Top priced bull at Clunie Range in 2015 at \$24,000) Or Millah Murrah Highlander G7( second op priced bull at their sale in 2013). All heifers have been backed up by Clunie Range Juno.
- The sale heifers are all by top Angus sires including the following bulls: Millah Murrah Hercules ( \$70,000 Australian top priced angus bull in 2015), Temania Emperor ( \$91,000 bull), Temania Berkley, Texas Global, Irelands Galaxy ( \$ 115,000 bull), Ascot Hallmark H147 ( We have sold sons to \$70,000), Irelands Gapsted ( \$54,000 bull), Millah Murrah Highlander G7.
- All heifers are fully registered & Breedplan recorded but will be sold **UNREGISTERED**. Should registration be required – a \$200 fee will apply. This fee will be waived upon purchase of 2 or more heifers.

# • CHAROLAIS HEIFERS LOT 70-110 •

- The older 'K' heifers in the sale were not joined at their normal age due to drought conditions last year & were held over till now through no fault of their own. The majority of sale heifers have been joined to calve at just over 2 years of age as we normally do in the stud.
- All heifers have been 3 GERM BLOODED to suit tick areas.
- The first 9 heifers have photos in the catalogue for the express reason to show you a sample of the whole draft of heifers.
- All Charolais lots are being sold individually.
- All Charolais sale heifers except 2 are polled.
- Some of the sale heifers are DNA tested Homozygous polled . These are marked on the Lot numbers. This is a rare opportunity.
- All heifers were AI'd on the 13 th Jan & put with back up bulls 14 days later. Pregtest details will be known before the sale. Due to the extreme heat In the last 2 months many heifers may not have taken but will still be sold. For any heifers within the next 12 months that prove not to breed we will refund the purchase price less salvage costs (Evidence must be shown of non breeding ability & disposal).
- The AI joining sires we have used for the Charolais heifers are shown on each lot number & include: Paringa Western Spur TOL D196E, Ascot Galaxy JAJ G131E or Paringa free Lunch TOLK330E ( Top priced bull at Paringa last year purchased by Ascot.)
- All of these 3 bulls are DNA tested homozygous polled & low birth weight calving ease bulls. Most of the calves from the sale heifers should be polled or scurred. All heifers were then depastured with Paringa free Lunch TOLK330E ( Homozygous polled).
- The sale heifers are all by leading Charolais sires including the following bulls: Ascot Goldrush, Ascot Galaxy, Moongool Gunsmoke ( Interbreed champion bull), Advance Domino ( Interbreed champion bull), Palgrove Frost, Ascot Eldorado, Palgrove Headline, Palgrove Justify, Paringa Western Spur , Harvie Redemption, Lt Blue Grass.
- All heifers are fully registered & Breedplan recorded, but will be sold **UNREGISTERED**. Should registration be required – a \$200 fee will apply. This fee will be waived upon purchase of 2 or more heifers.

- North Toolburra is on your right

## Navigating by GPS

- If navigating by GPS:  
Enter 1123 Warwick-Allora Road,  
Massie

## Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

# STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

**IMPORTANT NOTE:** All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
  2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
  3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
  4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
    - (a) Refuse to acknowledge any bid;
    - (b) Withdraw any lot or lots before or during the sale;
    - (c) Exclude any person from the auction venue should it think fit.
  5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
  6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
  7. In the event of any dispute in respect to the sale of any lot:-
    - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
    - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
    - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
    - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
  8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
  9. (a) **PAYMENT** - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
    - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
    - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
  - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
- (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
20. In these Conditions:-
  - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
  - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
  - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
  - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
