

ASCOT BULL & HEIFER SALE

FRIDAY 20TH SEPTEMBER 2024 – 12 NOON

A **ASCOT**
CHAROLAIS & ANGUS

144 POLLED BULLS
60 POLLED HEIFERS

ON-PROPERTY 'NORTH TOOLBURRA' WARWICK QLD

Welcome to the 2024 ALL POLLED Ascot Bull & Heifer Sale.
A special thank you to our previous buyers, under bidders & supporters.

We enjoyed catching up with many of our existing clients at Beefweek In Rocky & hear about the good results being achieved with our bulls.

It was also nice to meet new people from the industry while we were there who were interested in our program at Ascot.

PLEASE NOTE NEW SALE TIME START OF 12 MIDDAY, Friday 20th September.

This year's sale will as usual be a LIVE AUCTION ON PROPERTY AT WARWICK plus interfaced with AUCTIONS PLUS WITH LIVE VIDEO & AUDIO.

As well as photos we will have a VIDEO of EVERY bull & heifer in the sale on our website leading up to the sale. These will also appear on the Auctions Plus website.

PHONE BIDDING VIA AGENTS WILL ALSO BE AVAILABLE. 5% COMMISSION to be paid to any outside agent who sends a letter of introduction at least 24 hours before the sale or attends the sale.

We are very proud of this year's line-up of bulls & heifers. They display the BALANCE we are breeding for with docility, structural correctness, good weight for age, MSA focussed carcass traits, fertility & polledness.

All bulls & heifers are BORN & RAISED ON-PROPERTY IN QLD & suitable to go anywhere including WA. ALL BULLS HAVE SPENT THEIR LIVES ON CROP & PASTURE & now on a mild sale prep.

There are many HEIFER BULLS in the sale in both breeds & marked accordingly in the catalogue.

ANGUS SALE BULLS

The sale consists of 77 angus bulls: 55 x 2 year olds & 22 x 17 to 18 month olds.

All are by breed leading AI sires & back up bulls that are mostly AI sires as well including: MM Paratrooper, Dunoon Prime Minister, MM Rocketman, Texas Iceman, MM Rembrandt, Ascot Revolution, Lawsons Rocky, Sprys General & Moe.

CHAROLAIS SALE BULLS

The sale consists of 67 Polled Charolais bulls: 46 x 2 year olds & 21 x 16 to 18 month olds. There are 45 DNA Tested HOMOZYGOUS POLLED bulls in the sale & marked accordingly in the catalogue.

Sires represented include: First bulls by Ascot Rockstar, Ascot Recharge, Ascot Regent (all high selling bulls in our previous sales.) Other sires represented include: Rosedale Lump Sum, Rosedale Quantum Leap, Silverstream Padra, Paringa Kilo Packer & Silver Stream Manhattan. We are also putting up the FIRST SON SOLD IN AUSTRALIA BY PALGROVE ROCKAFELLA the bull we bought for \$100k. He will be approx. 13 months at sale time & HOMOZYGOUS POLLED.

STUD HEIFERS

We are very proud to present the BEST & LARGEST LINE UP of STUD, REGISTERED heifers in both breeds we have ever put up for sale. All are polled. The 61 heifers are from the heart of the herd & only sold to keep our numbers to a serviceable level.

- 31 x ANGUS HEIFERS with breed leading sires represented: Prime Minister, MM Paratrooper, MM Rocketman, MM Rembrandt, Ascot Revolution, Lawsons Rocky, Landfall New Ground, Sprys General & first daughters by the NZ sire Stokman Solution.
- 30 x polled CHAROLAIS HEIFERS sires represented include: PALGROVE ROCKAFELLA, Ascot Rock star, Ascot Recharge, Ascot Regent, Rosedale Lump Sum, Rosedale Quantum Leap, Ascot Sceptre, Paringa Kilo Packer, Galveston, Rangan Quarter Back. All are polled with 22 HOMOZYGOUS POLLED.

QUALITY ASSURANCE & HEALTH

- All bulls & heifers are independently assessed for structure & temperament.
- All bulls vet checked & SEMEN & MORPHIOLOGY TESTED to BULL CHECK STANDARD by Ced Wise Vets.
- All bulls vaccinated to IMMUNE READY STANDARD including:
 - tick fever
 - 3 day sickness, pesti virus, 7 in 1, pinkeye, botulism & vibrio
 - MH & IBR
- Ascot is a tested Pesti Free herd.
- All animals are DNA sire tested & include GENOMICALLY ENHANCED EBVS .
- All animals are breedplan recorded with birth weights recorded plus scans for fats, EMA & IMF conducted as yearlings & again before the sale.
- Ascot is a JBas 7 tested herd.

FREE DELIVERY on all animals TO MOST MAJOR CENTRES IN QLD & NSW.

Supplementary sheet with weights, scans, Semen tests, scrotal size etc will be available approx. 10 days before sale day & will be emailed to our database & put on our website.

Complimentary Morning tea, lunch & afternoon refreshments will be available on sale day.

All animals will be available for INSPECTION FROM 9 AM SALE DAY with sale starting at 12 MIDDAY. Angus bulls will sell first followed by Charolais bulls followed by Angus then Charolais heifers.

PRESALE INSPECTIONS BY APPOINTMENT ANY TIME BEFORE SALE DAY. Just give me a call to organise.

We look forward to seeing you on sale day.

Yours Sincerely,
 Jim & Jackie Wedge.

www.ascotcattle.com.au

5% COMMISSION TO OUTSIDE AGENTS

SALE INFORMATION

SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

REBATE:

5% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

PHONE BIDDING:

We have full mobile phone coverage at the sale. If you intend purchasing over the phone, please contact the selling agents to reserve a line.

GST:

All animals are sold exclusive of GST.

INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Nutrien at the sale venue.

While all care and attention will be taken liability of bulls falls to the purchaser at fall of hammer.

AUCTION PLUS

This year we will have live video and audio streaming all done through Auctions Plus. Please register 24hrs before the sale.

REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

CATERING:

Please join us for complimentary morning tea, lunch and after sale drinks.

PHYSICAL EXAMINATION OF BULLS

All bulls and heifers offered for sale have been structurally assessed by Jim Green and vet checked. A veterinary bull breeding soundness evaluation certificate will be issued before sale date and animals only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- All bulls undergo crush-side and morphology testing.
- Physical examination of feet, legs, gait, head and joints.
- Structural soundness evaluation & temperament score.

TEMPERAMENT

The bulls have been handled with horses, dogs, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

HEALTH QA:

The bulls are ready for immediate use.

We have treated them as follows:

- Pesti tested Negative
- Double vaccinated them with Vibrovax
- Vaccinated for Tick Fever
- Double Vaccinated with 7 in 1 & Pestigard
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale
- Botulism
- MH + IBR

JOHNES STATUS & WA ELIGIBILITY:

Bulls eligible to go to all states incl WA.

Ascot Warwick Qld property - **JBas 7**

BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

FEEDING REGIME & MANAGEMENT.

The life cycle of our bulls consists of running on crop or pasture all of their lives until just prior to sale time when they receive a high hay base ration. This ration contains a nutritionist formulated supplement with added vitamins, minerals and antioxidants for foot, fertility and general health. The high roughage ration also

includes chopped hay, straw and rolled barley at very low percentages. This ration also helps adjust the rumen to help them cope with whatever pasture conditions they encounter at their new homes.

SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 12 noon on Friday 20th September 2024.

Bulls may be inspected from 9.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

DISCLAIMER

Every care has been taken during the compilation of the catalogue to ensure the accuracy of information supplied. However, no responsibility will be accepted for any errors that may have occurred.

WARRANTY

THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

THE VENDOR WILL EITHER:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

WHERE:

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

THE PURCHASER ACKNOWLEDGES THAT:

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

DELIVERY

Nutrien will be handling the organisation of delivery of Sale Cattle. Free freight is offered to Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Injune, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Dubbo, Gunnedah & Casino.

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

SEMEN RIGHTS

Ascot retains the right to collect up to 200 straws of semen from any bull in the sale for use within the Ascot herd. Any semen collection would be at Ascot's expense & the purchaser's convenience.

ACCURACY OF CATALOGUE

While every care and attention to details in catalogue has been made we cannot guarantee that some mistakes have occurred during printing or construction of catalogue.

DNA TESTING

We DNA test all animals at weaning through Neogen Australasia.

Angus - Genomics includes PV or SV, & Recessive genetic conditions as required.

Charolais - 100K includes PV or SV, Poll, MYO & BPA.

POLL TESTING

Ascot Charolais bulls have been tested by Neogen Laboratory with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100% correct. We rely on the university to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.

WHO'S YOUR DADDY?

WHY SIRE VERIFY?

At Ascot we Sire Verify all our sale bulls to ensure that the bull you are investing in is as portrayed in the catalogue. Why is this important?

You are making an investment in genetics. These genetics, or pedigree of the animal you are buying, need to be independently verified as correct, not what we think it is.

FIT FOR PURPOSE:

An example - You are looking for a bull with certain EBV's for calving ease and low birthweight - if the bull you purchase was by a different sire to what was thought, then these values would be incorrect. He may have poor calving ease & high birthweight - not desirable if you were needing a bull to join with heifers for instance.

Another scenario - You have chosen to invest in a bull with particular traits - fat, muscle or marbling for example to influence your herd. If the bull you have selected is not sire verified, then there may be a possibility of it having different carcass trait values altogether.

EBV's are influenced by historical data from the animal's pedigree, so an incorrect pedigree means incorrect EBV's. This then is an issue as the bull you have purchased is not fit for the purpose you intended.

At Ascot we strive to give as much accurate information as we can. As well as all measurements collected and submitted to the breed society, we submit DNA to identify pedigree, and also the homozygous polled gene in our Charolais herd, to give you as much information as we can to help you in making your purchase.

Parts of this article provided with the permission of AA

HOMOZYGOUS POLLED

All animals stated as Homozygous polled in this catalogue have been tested with the SEQ_POLL Prediction test at Neogen Laboratory prior to sale, and are PcPc or PcPf Homozygous.

HOMOZYGOUS POLLED EXPLAINED

Recently, candidate mutations associated with polled phenotype in European breeds of cattle were found. There are two independent origins of polled, one found in Holstein-Friesian and Jersey breeds (Pf), the other in many European breeds of Celtic origin (Pc) such as Angus, Blonde d'Aquitaine, Dexter, Limousin, Charolais and Hereford, among others. Polledness is dominant; a polled animal can have one or two copies of the gene. All offspring of a bull with two copies of polled (homozygous) will be polled. Genetic testing is a cost effective means to determine if a polled animal has 1 or 2 copies of the gene.

Pc/Pc Polled. Two copies of the Polled-Celtic molecular marker are present. All offspring will be polled.

Pc/Pf Polled. One copy of the Polled-Celtic and one copy of the Polled-Friesian molecular markers are present. All offspring will be polled.

Reference:

Medugorac I, D Seichter, A Graf et al. Bovine Polledness - An autosomal dominant trait with allelic heterogeneity. PLoS One 7(6): e39477, 2012. (as supplied by AGL, UQ, Gatton, Q.)

Poll testing: Ascot Charolais bulls have been tested by the Neogen Laboratory with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100 % accurate. We rely on The University to determine an animal's status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test be deemed to be incorrect.

STRUCTURAL ASSESSMENT AT ASCOT

Jim Green – 0402 003 137

At Ascot we are 'Raising the Bar'

All sale bulls & females will be independently assessed for feet, structural soundness & temperament by industry renowned accredited assessor Jim Green. Jim Has over 20 years' experience in doing this & this is all he does. He does it for many seed stock producers all over Australia. As can be expected he knows his stuff!! Each animal will have its structural & docility result stated in our sale catalogue. We feel this is one more way we can give our buyers more comfort & confidence in the animals we are selling.

Good structure in cattle has a direct effect on growth and

reproductive performance of a beef herd. Structural problems have detrimental effects on longevity, conception rates, calving timeframes and therefore directly impact on profitability.

Leg and feet issues, and temperament are highly heritable, therefore identifying animals with these issues allows you to improve your herd through assessment and selection.

At Ascot, independently assessing structure and temperament, measuring and collecting data, along with the use of performance recording gives us a better picture of how individual animals perform. This aids genetic selection and helps us breed animals with desirable traits.

SCORING DIAGRAM

1-9 Scoring System for feet and leg structure

- A score of 5 is ideal. (Note: Temperament score of 1 is ideal)
- A score of 4 or 6 shows slight variation from ideal, but this includes most sound animals
- An animal scoring 4 or 6 would be acceptable in any breeding program
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However seedstock producers should be vigilant and understand that this score indicates greater variation from ideal.
- A score of 2 or 8 are low scoring animals and should be looked at cautiously and inspected very closely before purchasing
- A score of 1 or 0 should not be catalogued and are considered immediate culls

Temperament

Temperament or docility score separates animals from the same contemporary on their calmness in a confined area. Animals which are extremely quiet score '1'. Animals that are aggressive and extremely agitated in the crush score as '5'.

DNA TESTING & GENETIC CONDITIONS

At Ascot we DNA test all bulls & heifers prior to weaning. As well as sire or parent verification, Angus & Charolais are tested for Genomics and Charolais have 100k Genotype profiles, including Poll testing. Both breeds are tested for recessive genetic conditions, as required.

An animal can be an unaffected carrier and live a normal life, but if bred to another carrier can produce affected offspring. As they are recessive conditions, they shouldn't be of concern to clients who cross breed, however we wouldn't recommend with purebred herds..

ANGUS GENETIC CONDITIONS:

- Arthrogryposis multiplex (AM)
- Contractural arachnodactyly (CA)
- Developmental duplications (DD)
- Neuropathic hydrocephalus (NH)

CHAROLAIS GENETIC CONDITIONS:

- Myophosphorylase Deficiency (MYO) - At Ascot all animals in this catalogue tested are Myo Free so not displayed.
- Bovine Progressive Ataxia (BPA)

THE GENETIC STATUS OF EACH ANIMAL IS DISPLAYED FOR EACH LOT:

Angus : AM, NH, CA & DD

Charolais : BPA

__F – Tested and found to be Free

__C – Tested and found to be a Carrier

__FU – Based on the Pedigree, the animal is expected to be Free but untested

Welcome to the 2024 Ascot Bull Sale

Congratulations, you have chosen to purchase a bull destined to improve your herd's genetic profile and positively influence your profitability! Jim and Jackie

have put tremendous effort into ensuring their produce will produce the best possible product for you. Key to this has been managing reproductive risk.

Jim and Jackie asked me to assist them in ensuring that they do not sell an animal Persistently Infected (PI) with BVD. In order to protect your profitability and their reputation, all bulls & heifers sold at Ascot Cattle Company have been screened to ensure that none of them are PI.

BVD is arguably the most significant pathogen impacting beef and dairy production systems in Australia. Animals exposed to the virus may suffer reproductive losses, secondary complications from immune suppression, or both. To protect your production system's profitability, Jim and Jackie have ensured they won't pass a PI on to you by screening each animal sold today, & further they have vaccinated their sale animals to protect them should they meet a PI in the future.

Not only has your new bull been vaccinated twice against exposure to BVD, but also tick fever & twice against leptospirosis, vibrio, 3-day sickness, botulism, MH+IBR. I encourage you to continue to provide annual boosters by administering booster vaccines as appropriate for your area to your bulls approximately a month prior to mating each year.

Peak activity should occur in the first 3 weeks of the mating season, in which over 1/2 of the breeders joined may fall pregnant depending upon their condition, plane of nutrition, & how recently they have calved.

Most bull breakdowns occur in the first 3 weeks of mating due to the bull's busy initial caseload as well as the potential for exposure to diseases. Please visualize your bulls at least 2-3 times per week for the first 3 weeks of the mating season and at least weekly thereafter.

Bulls can work well together in large groups, however, as the mating season progresses, the number of cycling females will decline, & bored bulls can start fighting. Restricting your mating to 9 weeks can reduce bull aggression & ensures that a high proportion of cows are actually cycling when the bulls go in next season. Alternatively, reducing the bull load in the paddock as the season progresses may reduce bull wastage due to trauma.

If single sire mating, a good insurance policy is to switch appropriate bulls half-way through the joining period.

Happy Mating!

Enoch Bergman DVM

ASCOT NEWS

John Dee abattoir praised the **outstanding meat quality** from Ascot, highlighting our program's success. Following Ascot steers' processing at John Dee Warwick, Henry Hart congratulated Jim, affirming our **high standards**.

Congratulations to Samuel Holdings

for wins in 2 classes at the Dalby feeder & weaner sale earlier this year. Blue Ribbons for pens of heifers 301-400kg & 401-500kg

9 Years On & Still Happy

"There are currently 56 Ascot Charolais Bulls in our program. Used over Brahman females, their thickness has given the first-cross plenty of punch. Their temperament & quality is brilliant, weight for age & growth is outstanding. The Ascot bulls keep getting better & better."

Clint Gollan

Rocky Beef Week 2024

Once again we had some of our Angus & Charolais bulls on display at Beef. It was a great week welcoming both old and new faces to see a sample of our up-coming sale bulls.

Pictured below: Tom & Olivia Lawson, Paringa Livestock Vic

We've been identified as a 'Top Stud' in Bush AgriBusiness' Top Studs 2024 publication

This recognises that our genetics, expressed through the maternal Breedplan indices, are in the top half of the breed. Across all studs in Australia, there are only 237 that made the list.

We are very proud of the first 2 bulls in the sale. Both are by our home grown sire Ascot Revolution (who is now a semen sire for Alta Genetics). Revolution is a Paratrooper son out of a Ascot Hallmark cow. Lot 1 is moderate framed, thick, deep & soft bull with slick skin , tidy sheath, large scrotal,good structural scores & good temperament.A balanced set of EBV data with lower birth weight, breed average growth, positive fats & high IMF. **SHOULD SUIT HEIFERS OR COWS.** A great bull to start the sale.

We step up to a power bull here. Tremendous thickness, softness & extra bone in this standout bull. By the \$140,000 Dunoon Prime Minister bull we bought in partnership in 2020 & out of one of our Millah Murrah foundation donor cows. This was one of her last natural calves so she shows longevity in her genes. A Prime Minister bull Topped our sale last year. This Lot 4 bull is a very complete article with the looks & phenotype, strong sires head, extra thickness, softness, clean skinned, with good sheath set up & large scrotal. Combined with a data set that nearly can't be improved on, gives him the balance we strive for at Ascot. He has moderate birth, short gestation, nearly Top 10% growth, high carcass weight with near Top 20% EMA & IMF. Good all-round structural scores. To Top it off he is super docile. STUD SIRE PROSPECT or Top end commercial sire.

Another bull we think a lot of here. First of the \$225,000 Texas Iceman bulls we have sold & out of a female with Millah Murrah breeding. He is an upstanding, powerful bull, slightly larger framed with extra length & a strong sires head. He is clean skinned & extra quiet as most of our bulls are. He is a high growth bull with high carcass weight & top-end feed efficiency, Top 1% EMA & Top 20% IMF. Structurally good & good all-round bull that would suit cross breeding or any application to put some real weight & carcass traits into his progeny. One of the best bulls.

Second of the \$225K Texas Iceman sons in our sale & out of another Millah Murrah Loch Up cow. He is moderate, yet thick with strong sires head, good sheath set up, large scrotal & exceptionally quiet. He is a high growth bull with 200,400,600 day growth & carcass weight EBVs all in Top 10% of the breed. He also has high EMA & Top 10% retail beef yield. Good bull for cross-breeding over any breed of cow, we think.

Once again an extra thick, deep, soft bull here in a moderate frame with good spring of rib, good sheath & scrotal & clean skin type. He has stood out since a calf. Structurally good, with a strong sires head, he has high calving ease, low birth weight, positive fats & above average IMF data. Versatile, good all-round bull that **SHOULD SUIT HEIFERS OR COWS**.

One of the best bulls in the sale here. The first bull to be sold here by the 240k Millah Murrah Rembrandt sire he oozes quality with extra thickness, depth of body, with added bone, good sheath set up, large scrotal, all with a strong sires outlook & very docile. Near perfect structural scores. A high growth bull with Top 10% 200 & 600 day growth, Top 15% carcase weight, Top 10% EMA & Beef yield. Top end bull that could suit stud duties or high end commercial bull to put some quality into his progeny. Don't overlook him.

Like the previous lot this bull is also by The MM Rembrandt sire & maybe even better but hard to split. Huge spring of rib, super thickness, depth, length & doing ability with extra bone. Strong sires head & extremely docile. Slick skin type, good sheath & large scrotal. His data shows he is above breed average for growth, carcass weight, EMA & in the Top 5% for fats combined with short gestation length. Combine this with near perfect structural scores he is a possible stud sire in the making or Top end commercial bull. Would be great for a Brangus or Ultra Black stud program. One of the best here.

First of the yearling bulls & a cracker of a young bull. He was a calf at foot when we purchased his dam at the Millah Murrah cow sale for \$70,000 last year. She is now a donor cow in our herd. His sire is the \$280,000 Millah Murrah Rocket man, so he is bred in the purple. He was one of the crowd favourites at Beef week at Rocky where we had him on display. He is very docile & a bit of a character with a strong sires head. He is an early maturing, positive fat bull that exhibits extreme thickness right through with a beautiful slick skin type, very tidy sheath & good scrotal development. Possibly could suit a Brangus stud breeding program we think to add some thickness & doing ability without losing the slick skin type. Top 20% 400 day growth & Top 5% & 15% for fats. Don't miss this good young bull.

STUD SIRE ALERT. A yearling bull here that ticks all the boxes for an Angus stud sire or Top end commercial bull. A Prime Minister son out of a Paratrooper/Hallmark bred daughter he is bred in the purple. A bull with extra length, deep-flanked, added muscling, good sheath & large scrotal with ideal bone. Clean skin type for a young bull with a strong sire's head. Very good structural & temperament scores. His data is so well balanced is hard to improve: Positive calving ease, very short gestation, low birth weight, Top 8% 400 day growth, well above average carcass weight, near Top 10% EMA & fats & above average IMF. Indexes in Top 10%. Type, pedigree, structure, docility & data all in one package. Hard to find. Added bonus in that he **SHOULD SUIT HEIFERS OR COWS**. Semen retained for in herd use only.

A very impressive Millah Murrah Paratrooper son here. He is extra thick, deep flanked with strong sires head, clean sheathed with super slick hair type. His structural & temperament scores are good. Data shows high calving ease, short gestation, low birth weight, above average carcass weight and very good carcass attributes with Top 5% EMA, well above average fats, beef yield & IMF. This is a good bull that should put extra carcass weight plus eating quality into his progeny. Bonus that he **SHOULD SUIT HEIFERS OR COWS**.

Top 1% 400D,600D & Carcase Wts,Dom Index.
Top 2% 200D wt,EMA & Scrotal,NM Index.
Top 10% IMF.Top 15% Milk.Top 25% Shorter Gest Length. One of the best Charolais bulls in the sale straight up. His sire was a high selling bull that went to Silverstone Charolais in WA at a previous sale. Lot 78 is a super easy doing, powerful, soft, red factor bull with beautiful slick skin type, strong polled sire's head, good structural scores & very docile. Tidy sheath & large scrotal. Curve bending EBV data set with lower birth weight, very high growth & carcase weight, EMA and IMF. Indexes in top 1%. Please remember that all our sale bulls & heifers have genomically enhanced EBVs for greater accuracy. This bull should add weight & eating quality to his progeny. Note: He is a BPA carrier (a recessive gene, refer notes on page 6). Not recommended for purebred charolais herds but will suit cross breeding over any other breed. Bonus with this bull is he is **HOMOZYGOUS POLLED** so no dehorning of progeny. Don't regret missing this super commercial bull here. One of the best.

Top 2% 200D,400D,600D & Carcase Wts, Indexes.Top 10% Rib & Rump fats.Top 15% IMF & Milk.Top 25% EMA,Scrotal & Calving ease Dtrs. Another super bull here with great length, soft, slick skin type, near perfect structural scores & good temperament. A natural full brother to him is Ascot Recharge a high selling bull that also was sold to Silverstone Charolais stud in WA. Recharge has bred extremely well for them & us & has progeny in this sale. Very similar to the previous lot this bull has curve bending data with lower birth weight, Top 5% growth & carcase weight, very high EMA, fats & IMF. Top 1% Indexes. Very hard to get all this in one bull & with the bonus he is **HOMOZYGOUS POLLED**. will add weight & carcase quality to his progeny. Good bull here.

Top 2% Shorter Gestation length. Top 5% Calving ease Dir. Top 10% Lower Birthweight. Top 25% Rump fat. First of the Ascot Rockstar bulls to sell. Rockstar was the top priced bull at our 2021 sale as a yearling. Regarded as one of the best bulls we have bred. This lot 80 bull exudes softness & fleshing like his sire. These Rockstar bulls are so easy doing. Lot 80 is thick & deep flanked with ideal bone, strong sires head, clean hair type with near perfect structural scores, tidy sheath, large scrotal & very docile. His EBVs show he has high calving ease, low birthweight, around breed average growth, above breed average fats & IMF. Versatile as SHOULD SUIT HEIFERS OR COWS EQUALLY. To top it off he is **HOMOZYGOUS POLLED**. These are the types of bulls I love to breed. Top end commercial bull to add weight & finishing ability.

Top 1% Carcase Wt. Top 2% Milk & Scrotal. Top 5% 200D,400D,600D Wts & Dom Index. Top 15% NM Index. Top 25% Shorter Gestation length. STUD SIRE ALERT !! They don't come much better than this very impressive, powerful bull. One of the best bulls we have bred. He has stood out since a calf & we picked him to use in the stud late last year & early this year as we were so taken by him. His first calves are due in coming weeks. He has so much capacity, length, volume, extra bone & depth of flank for a mid frame score bull. Even though used on cows in the stud, he has come through as one of the heaviest bulls in the sale at over 1000kgs. Such an easy doing bull, he moves effortlessly regardless of his weight. He has a very strong sires head, very good structural scores, tidy sheath set up & huge scrotal at 46cms & is very quiet. Slick, soft skin type top it off. His EBV data matches him with Top 5% all growth categories & carcase weight with above average EMA, fats & beef yield. On top of this he has moderate birth weight & short gestation EBVs. Ticks pretty well all the boxes being **HOMOZYGOUS POLLED** as well. We are RETAINING SEMEN FOR IN HERD USE. SUIT STUD USE.

Top 2% Milk & Scrotal.Top 5% Shorter Gestation length.Top 10% 400D,600D Wts,Rib & Rump fats & Dom Index.Top 15% 200D Wt.Top 25% Carcase wt. Second of the Ascot Rockstar bulls to sell & a beauty. He is so soft & easy doing with good length, strong sires head, ideal bone, thickness & that beautiful loose skin & soft hair type. Very good structural scores, good sheath & good scrotal size & one of the MOST DOCILE bulls we have bred. He has also stood out since a calf & is an early to mid maturing type in a moderate frame. Look at this bulls EBV data set. Nearly can't improve on this with very short gestation, lower birthweight, high growth, Top 5% milk & scrotal, well above average EMA & IMF plus Top 5% fats. His calves should be born easily, grow quickly & finish easily to MSA standard. As an added bonus he is **HOMOZYGOUS POLLED**. We believe he has **STUD SIRE POTENTIAL**.

Top 5% 200D & 600D Wts.Top 25% Milk,Carcase Wt,Rib & Rump fats. A very well bred bull here by Lump Sum out of one of our best donor cows, Rebbby. This is her natural calf & she is 16 years old, sound as a bell & still going with another calf on her now. This bull should have longevity built in. He is long & soft with a strong top line, good bone, strong head, clean hair type with tidy sheath & large scrotal. Very good structural scores & very quiet. His EBV data shows he is a high growth bull in top 10% with above average carcase weight, fats & beef yield. Should put some weight for age & meat quality into a Bos Indicus type herd.

Top 1% 200D,400D,600D Wts Scrotal & Indexes.Top 5% IMF.Top 10% Carcase Wt & Shorter Gestation Length. One of our picks in the sale! One of the heaviest in the sale, this bull has extra length, thickness, softness, extra muscle expression, large hindquarter & a great red factor slick skin type. He has a strong topline for such a long bull with clean sheath & large scrotal. He has very good structural & temperament scores & a strong sires head & outlook. He moves effortlessly for a bull with this weight. He has genomically enhanced EBV data to match with short gestation, moderate birth weight, Top 1% growth & scrotal,high carcase weight & top 5% IMF. It is hard to get all this growth & carcase quality data in the one bull combined with his type. Plus the fact he is also **HOMOZYGOUS POLLED** makes him one of the very best here. SUIT STUD or top end commercial.

Top 1% 600D WT. Top 2% 200D Wt & EMA. Top 5% Carcase wt, NM Index. Top 10% 400D Wt, Retail Yield, Dom Index. Top 15% Scrotal. A bull with extra muscle, hind quarter depth, thickness & length here. He has a clean sheath & large scrotal. Good structural & temperament scores. His EBV data show he is a very high growth bull with 200,400,600 day growth, EMA & carcase weight all about Top 5%. He has positive fats, high beef yield & top 10% indexes. Should put some real weight for age & thickness into a Bos Indicus type herd.

Top 1% Milk, 600D & Carcase wts, both Indexes. Top 2% 400D wt, Calving Ease Dir & Lighter Birthweight. Top 5% Scrotal, 200D wt. Top 15% Shorter Gestation length. A moderate, super thick, extra slick skinned, super soft bull here with strong polled head, tight sheath, large scrotal & very docile. A real curve bender set of data with high calving ease, short gestation, low birth weight, combined with growth & carcase weight in top 1%. Calves should be born easily & early & grow very quickly. Versatile as EBVs suggest SHOULD SUIT HEIFERS OR COWS. A very good bull with added bonus he is **HOMOZYGOUS POLLED**.

Top 5% 200D wt. Top 10% Calving ease Dir. Top 20% Rib & Rump fats, Dom Index. Top 25% Milk, Calving ease Dtrs & Lighter Birthweight. We are excited to put forward the first son to be sold in Australia by Palgrove Rockerfella as a taste test for what we will have in our sale next year. We purchased Rockerfella at the Palgrove sale in 2022 for \$100,000. We bought him as he suited our program being moderate, thick, soft with extra bone, docility & HOMOZYGOUS POLLED. This lot 110 bull at only 13 months exhibits tremendous capacity, thickness, depth of flank, softness with extra bone, strong top line & docility. When viewed from behind his width & thickness is extraordinary while still being clean fronted. He is an earlier maturing young sire with a strong polled head, tight sheath & good structural scores. Most of his EBV data is around breed average with calving ease, short gestation, low birth weight combined with Top 5% 200 day growth & positive fats. Even at this young age he has passed his semen test as well. To complete the package he is **HOMOZYGOUS POLLED**. If needed he SHOULD SUIT HEIFERS OR COWS EQUALLY. Don't miss this opportunity to get in first with this super young bull. SHOULD SUIT STUD USE.

Top 2% EMA. Top 10% Calving ease Dtrs. Top 15% IMF. Top 25% 400D wt. We really like our yearling bulls in the sale this year. They generally exhibit extra thickness & softness. Lot 111 is no exception & one of our sale favourites. By the NZ sire Silverstream Manhattan this bull has extra length & extra bone but still with that softness & thickness we breed for. He is deep flanked with added muscle & hind quarter. He has a well developed scrotal & a tight sheath, good structural scores & nice temperament. His EBVs show he has well above average growth, carcase weight, fats & IMF combined with Top 1% EMA. Added bonus **HOMOZYGOUS POLLED**. We will retain semen for in herd use. **STUD SIRE POTENTIAL HERE**

He has extra length & softness with a very strong polled head. Good structural scores, tight sheath & good temperament. His EBVs show he is a high performance bull with very high growth, carcase weight, EMA & fats all mostly in top 10%. Will add some weight for age & finishing ability to his progeny & no dehorning as **HOMOZYGOUS POLLED**. Good bull.

Top 15% 200D wt.Top 2% 400D,600D & Carcase wts.Scrotal.Top 5% Shorter Gestation length.Top 10% Indexes.Top 15% Milk & Carcase wt. A deep, soft, thick, red factor bull with extra length & capacity, ideal bone & strong polled head. Good structural & temperament scores with large scrotal. Please note a BPA carrier (a recessive gene, refer notes on page 6). Not recommended for purebred Charolais herds but will suit cross breeding with any other breed. He is a very high growth bull with growth EBVs in Top 2%, high carcase weight, positive fats & IMF. His progeny should grow fast & heavy with finishing ability. Would suit cross breeding over Bos Indicus females or similar. Again no dehorning as **HOMOZYGOUS POLLED**. Good commercial bull.

Elders Stud Stock - QLD Offices

PO Box 395
Rockhampton
P. 07 4838 9000

PO Box 7270
Toowoomba
P. 07 4690 7777

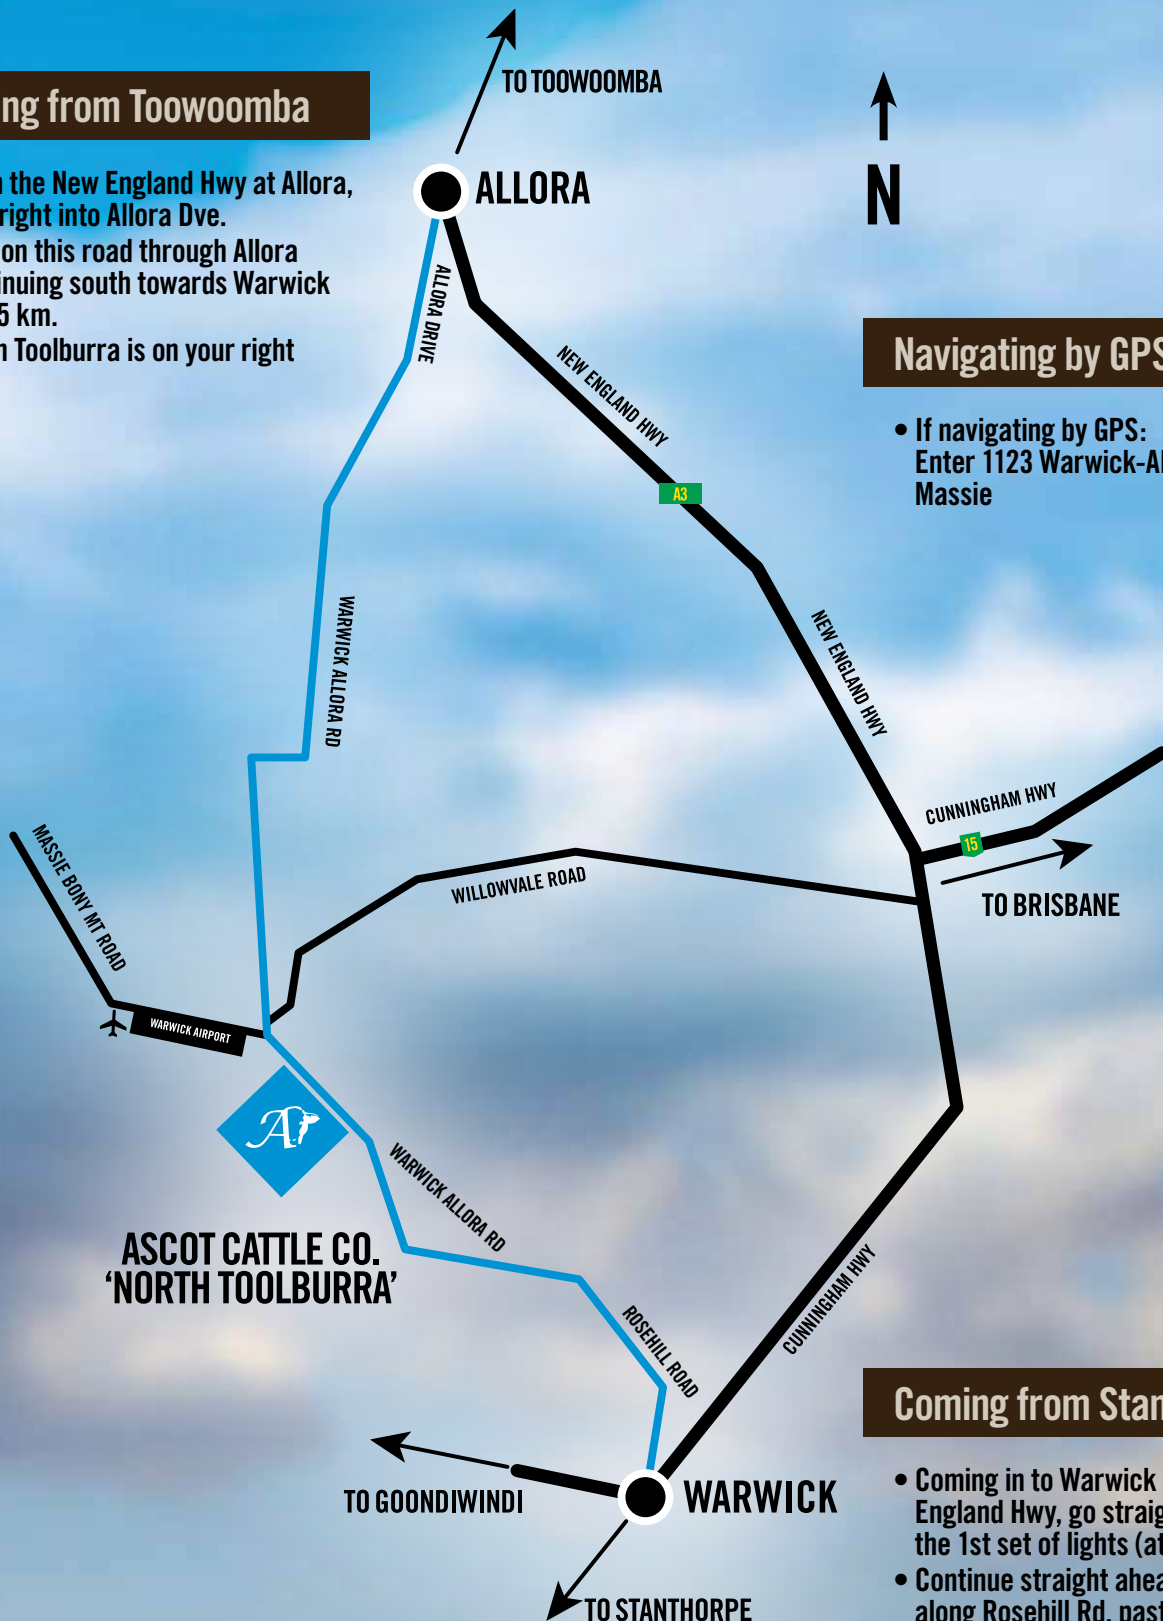

HOW TO GET THERE

ASCOT

Coming from Toowoomba

- From the New England Hwy at Allora, turn right into Allora Dve.
- Stay on this road through Allora continuing south towards Warwick for 15 km.
- North Toolburra is on your right

Navigating by GPS

- If navigating by GPS:
Enter 1123 Warwick-Allora Road,
Massie

Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
 2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
 3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
 4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
 - (a) Refuse to acknowledge any bid;
 - (b) Withdraw any lot or lots before or during the sale;
 - (c) Exclude any person from the auction venue should it think fit.
 5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
 6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
 7. In the event of any dispute in respect to the sale of any lot:-
 - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
 - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
 - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
 - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
 8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
 9. (a) **PAYMENT** - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
 - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
 - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
 - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
 10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
 11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
 12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
 13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
 14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
 15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
 16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
 - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
 17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
 18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
 - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
 19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
 20. In these Conditions:-
 - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
