

ASCOT BULL & HEIFER SALE

FRIDAY 19TH SEPTEMBER 2025 – 12 NOON

A **ASCOT**
CHAROLAIS & ANGUS

137 POLLED BULLS
66 POLLED HEIFERS

ON-PROPERTY 'NORTH TOOLBURRA' WARWICK QLD

Welcome to the 2025 ALL POLLED Ascot Bull & Heifer Sale.
A special thank you to our previous buyers, under bidders & supporters.

A special thank you to all our previous buyers, underbidders & supporters many who have been supporting us for well over 10 years.

PLEASE NOTE SALE TIME START OF 12 MIDDAY, Friday 19th September.

This year's sale will as usual be a LIVE AUCTION ON PROPERTY AT WARWICK plus interfaced with AUCTIONS PLUS WITH LIVE VIDEO & AUDIO.

As well as photos we will have a VIDEO of EVERY bull & heifer in the sale on our website leading up to the sale. These will also appear on the Auctions Plus website.

PHONE BIDDING VIA AGENTS WILL ALSO BE AVAILABLE. 5% COMMISSION to be paid to any outside agent who sends a letter of introduction at least 24 hours before the sale or attends the sale. Please contact your preferred agent prior to the sale to arrange.

The consistency within our draft of sale bulls is what most impresses everyone that has inspected both breeds of sale bulls this year. This also pleases us. We feel if you have consistency then this breeds on for us & for our buyers. It is not easy to achieve consistency but our years of hard selection in both breeds within our females is starting to take effect.

Our sale bulls display the BALANCE we are breeding for with docility, structural correctness, good weight for age, MSA focussed carcass traits, fertility & polledness.

All bulls & heifers are BORN & RAISED ON-PROPERTY IN QLD & suitable to go anywhere including WA. ALL BULLS HAVE SPENT THEIR LIVES ON CROP & PASTURE & now on a mild sale prep.

There are many HEIFER BULLS in the sale in both breeds & marked accordingly in the catalogue.

ANGUS SALE BULLS

The sale consists of 82 angus bulls: 49 x 2 year olds & 33 x 18 to 19 month olds.

All are by breed leading AI sires & back up bulls that are mostly AI sires as well including: \$260K Millah Murrah Rocketman, 1st sons of the \$160k MM Sugar Ray, Ascot Silverado, \$160K MM Paratrooper, \$140K Dunoon Prime Minister, Ascot Revolution, \$140K Lawsons Rocky, 1st sons of the \$240K Landfall Signature, first sons NZ sire Stokman Solution, first sons \$190K Knowla So Right & 1st sons of US sire Woodhill Comstock.

CHAROLAIS SALE BULLS

The sale consists of 55 Polled Charolais bulls: 36 x 2 year olds & 19 x 17 to 18 month olds. There are 40 DNA Tested HOMOZYGOUS POLLED bulls in the sale & marked accordingly in the catalogue. They all generally exhibit thickness & softness are moderate framed & easy doing.

Sires represented include: 1 st sons by Ascot Septre a previous top priced bull selling to Appleton Cattle Co for \$54K, first sons sold in Australia by LT Governor, the \$100K Palgrove Rockefeller, Ascot Recharge, Ascot Regent (all high selling bulls in our previous sales.) Other sires represented include: Ascot Rockstar, Rosedale Lump Sum, Rosedale Quantum Leap, Paringa Kilo Packer.

STUD HEIFERS

A real feature of this sale is that we are very proud to present the BEST & LARGEST LINE UP of STUD, REGISTERED heifers we have ever put up for sale. All are polled. The 66 heifers are from the heart of the herd & only sold to keep our numbers to a serviceable level. Unlike many stud female sales these females are by the latest genetics available allowing buyers to get in on the ground floor to some of these new blood lines.

- 50 x ANGUS HEIFERS with breed leading sires represented: Prime Minister, MM Paratrooper, MM Rocketman, Ascot Revolution, NZ sire Stokman Solution plus first heifers of \$240k Landfall Signature, Ascot Statesman, \$240K MM Santiago, \$190K Knowla So Right & Woodhill Comstock. Sale also includes ET calves by 2 of our leading Millah Murrah donor cows.
- 16 x polled CHAROLAIS HEIFERS. Sires represented include: PALGROVE ROCKAFELLA, Ascot Septre, Ascot Sandstone. Rosedale Lump Sum & Belbournie Park Royalty. All are polled with 13 HOMOZYGOUS POLLED.

QUALITY ASSURANCE & HEALTH

- All animals are independently assessed by Jim Green for structure & temperament.
- All bulls vet checked & SEMEN & MORPHOLOGY TESTED to BULL CHECK STANDARD by Ced Wise Vets.
- All bulls vaccinated to IMMUNE READY STANDARD including:
 - Blooded for tick fever
 - 3 day sickness, pestivirus, 7 in 1, pinkeye, botulism & vibrio
 - MH & IBR
- Ascot is a tested Pesti Free herd.
- All animals are DNA parent or sire tested & include GENOMICALLY ENHANCED EBVS .
- All animals are Breedplan recorded with birth weights recorded plus scans for fats, EMA & IMF conducted as yearlings & again before the sale.
- Ascot is a JBAs 7 tested herd.

FREE DELIVERY on all animals TO MOST MAJOR CENTRES IN QLD & NSW.

Supplementary sheet with weights, scans, semen tests, scrotal size etc will be available approx. 10 days before sale day & will be emailed to our database & put on our website.

Complimentary Morning tea, lunch & afternoon refreshments will be available on sale day.

All animals will be available for INSPECTION FROM 9 AM SALE DAY with sale starting at 12 MIDDAY. Angus bulls will sell first followed by Charolais bulls followed by Angus then Charolais heifers.

PRESALE INSPECTIONS BY APPOINTMENT ANY TIME BEFORE SALE DAY. Just give me a call.

We look forward to seeing you on sale day.

Yours Sincerely,
 Jim & Jackie Wedge.

www.ascotcattle.com.au

5% COMMISSION TO OUTSIDE AGENTS

SALE INFORMATION

SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

REBATE:

5% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

PHONE BIDDING:

We have full mobile phone coverage at the sale. If you intend purchasing over the phone, please contact the selling agents to reserve a line.

GST:

All animals are sold exclusive of GST.

INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Nutrien at the sale venue.

While all care and attention will be taken liability of bulls falls to the purchaser at fall of hammer.

AUCTION PLUS

This year we will have live video and audio streaming all done through Auctions Plus. Please register 24hrs before the sale.

REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

CATERING:

Please join us for complimentary morning tea, lunch and after sale drinks.

PHYSICAL EXAMINATION OF BULLS

All bulls and heifers offered for sale have been structurally assessed by Jim Green and vet checked. A veterinary bull breeding soundness evaluation certificate will be issued before sale date and animals only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- All bulls undergo crush-side and morphology testing.
- Physical examination of feet, legs, gait, head and joints.
- Structural soundness evaluation & temperament score.

TEMPERAMENT

The bulls have been handled with horses, dogs, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

HEALTH QA:

The bulls are ready for immediate use.

We have treated them as follows:

- Pesti tested Negative
- Double vaccinated them with Vibrovax
- Double vaccinated for Tick fever
- Double Vaccinated with 7 in 1 & Pestigard
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale
- Botulism
- MH + IBR

JOHNES STATUS & WA ELIGIBILITY:

Bulls eligible to go to all states incl WA.

Ascot Warwick Qld property -
JBas 7

NO FOOT TRIMMING OR HAIR BURNING

BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

FEEDING REGIME & MANAGEMENT.

The life cycle of our bulls consists of running on crop or pasture all of their lives until just prior to sale time when they receive a high hay base ration. This ration contains a nutritionist formulated supplement with added vitamins, minerals and antioxidants for foot, fertility and general health. The high roughage ration also

includes chopped hay, straw and rolled barley at very low percentages. This ration also helps adjust the rumen to help them cope with whatever pasture conditions they encounter at their new homes.

SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 12 noon on Friday 19th September 2025.

Bulls may be inspected from 9.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

DISCLAIMER

Every care has been taken during the compilation of the catalogue to ensure the accuracy of information supplied. However, no responsibility will be accepted for any errors that may have occurred.

WARRANTY

THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

THE VENDOR WILL:

Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

WHERE:

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

THE PURCHASER ACKNOWLEDGES THAT:

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

DELIVERY

Nutrien will be handling the organisation of delivery of Sale Cattle. Free freight is offered to Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Injune, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Dubbo, Gunnedah & Casino.

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

SEMEN RIGHTS

Ascot retains the right to collect up to 200 straws of semen from any bull in the sale for use within the Ascot herd. Any semen collection would be at Ascot's expense & the purchaser's convenience.

ACCURACY OF CATALOGUE

While every care and attention to details in catalogue has been made we cannot guarantee that some mistakes have occurred during printing or construction of catalogue.

DNA TESTING

We DNA test all animals at weaning through Neogen Australasia.

Angus - Genomics includes PV or SV, & Recessive genetic conditions as required.

Charolais - 100K includes PV or SV, Poll, MYO & BPA.

POLL TESTING

Ascot Charolais bulls have been tested by Neogen Laboratory with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100% correct. We rely on the university to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.

WHO'S YOUR DADDY?

WHY SIRE VERIFY?

At Ascot we Sire Verify all our sale bulls to ensure that the bull you are investing in is as portrayed in the catalogue. Why is this important?

You are making an investment in genetics. These genetics, or pedigree of the animal you are buying, need to be independently verified as correct, not what we think it is.

FIT FOR PURPOSE:

An example - You are looking for a bull with certain EBV's for calving ease and low birthweight - if the bull you purchase was by a different sire to what was thought, then these values would be incorrect. He may have poor calving ease & high birthweight - not desirable if you were needing a bull to join with heifers for instance.

Another scenario - You have chosen to invest in a bull with particular traits - fat, muscle or marbling for example to influence your herd. If the bull you have selected is not sire verified, then there may be a possibility of it having different carcass trait values altogether.

EBV's are influenced by historical data from the animal's pedigree, so an incorrect pedigree means incorrect EBV's. This then is an issue as the bull you have purchased is not fit for the purpose you intended.

At Ascot we strive to give as much accurate information as we can. As well as all measurements collected and submitted to the breed society, we submit DNA to identify pedigree, and also the homozygous polled gene in our Charolais herd, to give you as much information as we can to help you in making your purchase.

Parts of this article provided with the permission of AA

HOMOZYGOUS POLLED

All animals stated as Homozygous polled in this catalogue have been tested with the SEQ_POLL Prediction test at Neogen Laboratory prior to sale, and are PcPc or PcPf Homozygous.

HOMOZYGOUS POLLED EXPLAINED

Recently, candidate mutations associated with polled phenotype in European breeds of cattle were found. There are two independent origins of polled, one found in Holstein-Friesian and Jersey breeds (Pf), the other in many European breeds of Celtic origin (Pc) such as Angus, Blonde d'Aquitaine, Dexter, Limousin, Charolais and Hereford, among others. Polledness is dominant; a polled animal can have one or two copies of the gene. All offspring of a bull with two copies of polled (homozygous) will be polled. Genetic testing is a cost effective means to determine if a polled animal has 1 or 2 copies of the gene.

Pc/Pc Polled. Two copies of the Polled-Celtic molecular marker are present. All offspring will be polled.

Pc/Pf Polled. One copy of the Polled-Celtic and one copy of the Polled-Friesian molecular markers are present. All offspring will be polled.

Reference:

Medugorac I, D Seichter, A Graf et al. Bovine Polledness - An autosomal dominant trait with allelic heterogeneity. PLoS One 7(6): e39477, 2012. (as supplied by AGL, UQ, Gatton, Q.)

Poll testing: Ascot Charolais bulls have been tested by the Neogen Laboratory with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100 % accurate. We rely on The University to determine an animal's status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test be deemed to be incorrect.

STRUCTURAL ASSESSMENT AT ASCOT

Jim Green – 0402 003 137

At Ascot we are 'Raising the Bar'

All sale bulls & females will be independently assessed for feet, structural soundness & temperament by industry renowned accredited assessor Jim Green. Jim Has over 20 years' experience in doing this & this is all he does. He does it for many seed stock producers all over Australia. As can be expected he knows his stuff!! Each animal will have its structural & docility result stated in our sale catalogue. We feel this is one more way we can give our buyers more comfort & confidence in the animals we are selling.

Good structure in cattle has a direct effect on growth and

reproductive performance of a beef herd. Structural problems have detrimental effects on longevity, conception rates, calving timeframes and therefore directly impact on profitability.

Leg and feet issues, and temperament are highly heritable, therefore identifying animals with these issues allows you to improve your herd through assessment and selection.

At Ascot, independently assessing structure and temperament, measuring and collecting data, along with the use of performance recording gives us a better picture of how individual animals perform. This aids genetic selection and helps us breed animals with desirable traits.

SCORING DIAGRAM

1-9 Scoring System for feet and leg structure

- A score of 5 is ideal. (Note: Temperament score of 1 is ideal)
- A score of 4 or 6 shows slight variation from ideal, but this includes most sound animals
- An animal scoring 4 or 6 would be acceptable in any breeding program
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However seedstock producers should be vigilant and understand that this score indicates greater variation from ideal.
- A score of 2 or 8 are low scoring animals and should be looked at cautiously and inspected very closely before purchasing
- A score of 1 or 0 should not be catalogued and are considered immediate culls

Temperament

Temperament or docility score separates animals from the same contemporary on their calmness in a confined area. Animals which are extremely quiet score '1'. Animals that are aggressive and extremely agitated in the crush score as '5'.

DNA TESTING & GENETIC CONDITIONS

At Ascot we DNA test all bulls & heifers prior to weaning. As well as sire or parent verification, Angus & Charolais are tested for Genomics and Charolais have 100k Genotype profiles, including Poll testing. Both breeds are tested for recessive genetic conditions, as required.

An animal can be an unaffected carrier and live a normal life, but if bred to another carrier can produce affected offspring. As they are recessive conditions, they shouldn't be of concern to clients who cross breed, however we wouldn't recommend with purebred herds..

ANGUS GENETIC CONDITIONS:

- Arthrogryposis multiplex (AM)
- Contractural arachnodactyly (CA)
- Developmental duplications (DD)
- Neuropathic hydrocephalus (NH)

CHAROLAIS GENETIC CONDITIONS:

- Myophosphorylase Deficiency (MYO) - At Ascot all animals in this catalogue tested are Myo Free so not displayed.
- Bovine Progressive Ataxia (BPA)

THE GENETIC STATUS OF EACH ANIMAL IS DISPLAYED FOR EACH LOT:

Angus : AM, NH, CA & DD

Charolais : BPA

__F – Tested and found to be Free

__C – Tested and found to be a Carrier

__FU – Based on the Pedigree, the animal is expected to be Free but untested

Welcome to the 2025 Ascot Bull Sale

Congratulations, you have chosen to purchase a bull destined to improve your herd's genetic profile and positively influence your profitability! Jim and Jackie

have put tremendous effort into ensuring their produce will produce the best possible product for you. Key to this has been managing reproductive risk.

Jim and Jackie asked me to assist them in ensuring that they do not sell an animal Persistently Infected (PI) with BVD. In order to protect your profitability and their reputation, all bulls & heifers sold at Ascot Cattle Company have been screened to ensure that none of them are PI.

BVD is arguably the most significant pathogen impacting beef and dairy production systems in Australia. Animals exposed to the virus may suffer reproductive losses, secondary complications from immune suppression, or both. To protect your production system's profitability, Jim and Jackie have ensured they won't pass a PI on to you by screening each animal sold today, & further they have vaccinated their sale animals to protect them should they meet a PI in the future.

Not only has your new bull been vaccinated twice against exposure to BVD, but also tick fever & twice against leptospirosis, vibrio, 3-day sickness, botulism, MH+IBR. I encourage you to continue to provide annual boosters by administering booster vaccines as appropriate for your area to your bulls approximately a month prior to mating each year.

Peak activity should occur in the first 3 weeks of the mating season, in which over 1/2 of the breeders joined may fall pregnant depending upon their condition, plane of nutrition, & how recently they have calved.

Most bull breakdowns occur in the first 3 weeks of mating due to the bull's busy initial caseload as well as the potential for exposure to diseases. Please visualize your bulls at least 2-3 times per week for the first 3 weeks of the mating season and at least weekly thereafter.

Bulls can work well together in large groups, however, as the mating season progresses, the number of cycling females will decline, & bored bulls can start fighting. Restricting your mating to 9 weeks can reduce bull aggression & ensures that a high proportion of cows are actually cycling when the bulls go in next season. Alternatively, reducing the bull load in the paddock as the season progresses may reduce bull wastage due to trauma.

If single sire mating, a good insurance policy is to switch appropriate bulls half-way through the joining period.

Happy Mating!

Enoch Bergman DVM

ASCOT NEWS

MLA VISIT IN MAY WITH LACHLAN FROM MLA & THE JAPAN MEAT GRADING ASSN

It was a pleasure to host Lachlan from MLA visiting with a delegation of the Japanese Meat Grading Assn. They were very interested in the Ascot program, with our focus on Carcase traits & temperament....and the morning tea!

SHANE BENNETT

One of our buyers with their own successful meat brand using Ascot Angus. Check out the marbling!

ANGUS WORLD EXPO TAMWORTH

A terrific, well-run event both in Tamworth & Brisbane. It only comes to Australia every 30 yrs so & Ascot was proud to be involved with a cattle display in Tamworth. Although 3rd & 4th respectively in the pens of 3 competition, our pen of heifers and bulls placed 1ST in the all-important carcase & performance trait EBV section of the judging. This is testament to our focus on improving these traits in our herd. We also sold an elite heifer to New River Angus Tas, & embryo lots achieved \$3800 & \$4600 each.

NMMR118 – Dam of embryos

HEAVY LITTLE METAL WINS NCHA FUTURITY

What a huge thrill to have our mare, Heavy Little Metal with the 2025 National Cutting Horse Open Futurity in Tamworth in June. Thanks to Todd Graham - the breeder, trainer & rider of this magnificent mare. Being our first foray into cutting, we are blessed & humbled with this result. We have an embryo in a recip mare at home from her due in November. Great fun!

We've again been identified as a 'Top Stud' in Bush AgriBusiness' Top Studs 2025 publication

This recognises that our genetics, expressed through the maternal Breedplan indices, are in the top half of the breed. Across all studs in Australia, there are only 237 that made the list.

www.bushagri.com.au/topstuds

ASCOT CLIENT SUCCESSES

Mandy McArthur

POINTON PASTORAL

Pointon Pastoral runs 3000 backgrounders & 2500 breeders on their South Burnett & Surat properties. Predominately a Charbray producer in the past, Brett Pointon now runs an Angus herd of 1300 angus breeders on his Surat properties. Pointon Pastoral purchased its first Angus bulls in 2024, after having been a long-time Charolais client. Mr Pointon said "the Ascot bulls he had purchased from Jim and Jackie over the past 10 years had been exceptional, and when the decision was made to purchase a line of Angus bulls, the logical choice was to firstly go back to Ascot."

Linda Mantova QCL

MIKE & SHARYN BENN

Mr Benn is passionate about crossbreeding and said the Charolais has proven its worth for its growth and doing ability across their Santa-Hereford-cross and Charbray cow herds. "These weaner steers have great growth and muscle about them. This is reflected in our clients continuing to come back for more. The Benns' business relationship with Ascot stud principals Jim and Jackie Wedge goes back seven years. "We're running about 12 Ascot bulls now. The Wedges are the best you'll find to deal with. We've never had any issues with them or their bulls. They don't hold back. When they want new bloodlines they go to the best. These are the sort of people we need more of in the industry."

"We have a bull budget of between \$15,000 to \$20,000. Our weaners are sought-after across the state because they possess these terrific Ascot Charolais genetics."

Linda Mantova QCL

SAMUEL HOLDINGS

Congratulations to Nick Mather & his manager Miles Paterson, Samuel Holdings on their great results at the Dalby Feeder & Weaner sale. In Nick's Words "The good result is down to Ascot bulls & Mile's spectacular management. When ours & another Ascot client's progeny came in, prices lifted 20-30 cents"

MAREE'S PASSION LEADS TO TOP SALES RESULTS

Congratulations to another 10+ year Ascot client Maree Banks Duncombe on the sale of her PTIS Brahman heifers PTIC to Homo Polled ASCOT Charolais bulls, selling for \$2350/hd out of the paddock. She also topped the annual Silverdale sale with her Charolais x Brahman Champion pen of heifers, with top results for the steers. All by Homo Polled Ascot Charolais Bulls

ANGUS PLAY A PIVOTAL ROLL AT KINDEE

Brothers Andrew & Stuart Murray own the successful century-old beef aggregation, Kindee Pastoral Co, covering 15,000 Ha at Taroom & Injune, Qld. Joining 2500 females annually – 600 being heifers joined to Angus bulls. Kindee has been a client of Jim & Jackie Wedge's Ascot Stud for the last 15 years. "We like the Ascot bulls as they are acclimatised to our conditions. We love the genetic diversity, results, growth, quality & adaptability of Ascot's Angus, & their temperament particularly."

"The Ascot Angus bull gives us a nice black calf & if she's a female ends up a 600kg animal & that's what we are looking for. Our cattle top the weights at Roma, because we buy outstanding genetics & breed on exceptional country, giving us enormous weight & consistently getting 20% above market value"

Andrew has his sights set on his goal in the beef industry - a vertically integrated program, with Kindee producing the cattle, to a feedlot with a specialised ration, a custom kill at an abattoir, to a butcher shop line to tell the Kindee story – well known & synonymous with Agribusiness in QLD & Beyond.

Linda Mantova QCL

TECHNICAL

BREEDPLAN, Completeness of Performance

On the Member Search section of the Charolais online herdbook you may see logos on the bottom of the Member Detail screen. The logos indicate the completeness of data submission for BREEDPLAN and is assessed annually.

The “Completeness of Performance” herd rating system assesses the quantity of pedigree and performance information that has been submitted to BREEDPLAN by an individual seedstock herd. While ultimately EBV accuracy values provide an indication of the reliability an animal’s EBVs, one of the key factors underpinning the accuracy of EBVs is the quantity of performance information that has been recorded with BREEDPLAN. The “Completeness of Performance” star rating provides both seedstock and commercial producers with an assessment of how much performance has been submitted to BREEDPLAN by a herd.

The star rating for a herd is calculated based on the proportion of calves within the herd born in a fixed 5 year period that have performance recorded for each trait. Different criteria are used within each individual breed depending on the traits for which EBVs are calculated within the breed. Each herd receives a star rating on a 0 – 5 scale (including half stars) that summarises the relative “completeness” of their performance information.

Logo: 5 Star

Logo: 4 Star

Logo: 3 Star

Star Rating	Description
5	Herds with a star rating of “5” are gold standard. They are considered to be recording “complete” performance information with BREEDPLAN for all animals across all traits for which EBVs are available.
4 or 4.5	Herds with a star rating of “4” or “4.5” are silver standard. They are considered to be recording comprehensive performance information with BREEDPLAN for most animals and traits, but are recording less performance than a 5 star herd.
3 or 3.5	Herds with a star rating of “3” or “3.5” are considered bronze standard. They are considered to be recording performance information with BREEDPLAN for a reasonable number of traits or animals, but are recording less performance information than a 4 or 5 star herd.
2.5 or less	Herds with a rating of “2.5” or less are recording information with BREEDPLAN but not for all animals or traits. They are recording less performance information than a 3, 4 or 5 star herd.

Star Rating	Charolais Herds (Alphabetical)
5	Ascot, Belbourie Park, Kenmere
4 or 4.5	Charnelle, Danaan, JC, LHU, Rangan, River Run, Rosedale, Tarcombe, Veejay Downs, Venturon
3 or 3.5	Allednaw, Alpine, Barambah-Dale, Bardoo, Challambi, Cheyenne, Cooara, Culham, Curragindi, Futurity, Glenlea, J&S Charolais, Kandanga Valley, Kooyong, Liberty, Noelene, Palgrove, Rockwell, Silverstone, Shadowvale, Tambo River, Taylor, Valley View, Violet Hills

One of the best bulls straight up here. A top end Prime Minister commercial sire here that is thick, slick skinned, strong headed, with tight sheath, large scrotal & near perfect structural scores. Temperament is also impeccable is a high growth bull with good carcase weight & will breed some heavy, thick progeny. Suit cross-breeding or straight angus. Top 5% for Shearforce Tenderness. Don't miss him at lot 1. The \$140K Prime Minister sire delivers another good bull here.

First son to be sold by the Millah Murrah Sugar Ray sire we purchased with JT Angus in 2022 for \$160K. Being a new sire line he offers some genetic variation in his sons. His sons are everything we expected as is this one being stout & thick, deep flanked with tight sheath & clean hair type. Very good temperament with great structural scores. He is a high growth bull with 600 day weight in top 5% of breed & carcase weight in top 15%. Well above breed average IMF in top 30% make him a good all round commercial bull that should breed heavy progeny that grade well. Suit any production system.

A real colossus of a bull here that is extra powerful, thick, deep with big spring of rib & beautiful slick skin & hair type. He has a real sires head & tight sheath. Structurally very sound with good temperament. A bull with above average 600 day growth, carcass weight, fats & IMF. A nicely balanced bull that will suit any operation, straight angus or cross-breeding.

One of our favourites here being long, thick, clean skinned, deep sided with strong sires head & tight sheath. Very good structural scores & excellent temperament. Super pedigree by the \$140K Rocky bull out of a cow with MM Paratrooper & MM Loch Up in her pedigree. His data is curve bending with good calving ease, lower birth, top 7% for 600 day weight & top 12% for 400 day. Add to this top end milk, scrotal, docility, carcass weight & IMF in top 7% at 4.8. Top 15% for Shearforce Tenderness. He is unusual as he doesn't show the weaknesses that some high IMF bulls can exhibit. He still looks like a bull should. His data shows he **SHOULD SUIT HEIFERS OR COWS**. **STUD SIRE POTENTIAL HERE.**

Another of our favourites here. By the super consistent MM Paratrooper sire out of a Millah Murrah donor cow we bought in 2022 for \$40K who has bred extraordinarily for MM & now for us. A complete full brother to this Lot 5 bull sold for \$100k at a previous Millah Murrah sale. This bull is very complete being moderate, super thick right through, good hindquarter, with strong head, tight sheath, large scrotal & beautiful skin type to suit the Qld market like most of our bulls do. Great balance of data from good calving ease, lower birth to 200, 400, 600 day growth all in top 20% of the breed & carcass weight in top 5%. Very good structural scores & super docile. Docility is the No1 trait we breed for at Ascot. An excellent top end commercial bull that could also suit STUD DUTIES. Versatile as data shows **SHOULD SUIT HEIFERS OR COWS.**

6	5	6	6	5	6	5	1

This bull is typical of the \$140K Prime Minister sire with that extra length, thickness, depth of body, slick skin type, tight sheath, sires head, large scrotal & great temperament. He is an extra high growth bull with 200, 400, 600 day growth & carcass weight all in the top 1- 5% of the breed. Also with an IMF EBV of 2.0 he should breed progeny that weight extra heavy & finish to MSA easily. Like most of our bulls he has great structural scores & good temperament. Great all round commercial sire here.

This is one of my overall picks of the sale. Another great Prime Minister son who is extra deep, long, thick & powerful with that beautiful soft, slick skin type. He has that real sires head combined with tight sheath, good scrotal, extra spring of rib & good overall structural scores & super docility. He has a nice balance of EBV data with low birth weight, top 20% 600 day growth & above average 200 & 400 & carcass weight. Combine this with top 5% EMA & well above average IMF,Top 5% for Shearforce Tenderness, he would be an easy bull to use for any application. **SHOULD SUIT HEIFERS OR COWS** as a bonus. STUD POTENTIAL or top end commercial bull.

By the \$140K Rocky bull this bull has added length, clean hair type with good scrotal & tight sheath. Structurally very sound with good temperament. He is a high growth bull with 400 & 600 day weights in the top 6% of the breed. He has top 10% carcass weight & above average beef yield & IMF. His progeny should weigh heavy & grade highly. Good bull for cross-breeding. Top 1% for Shearforce Tenderness

An extra classy bull here by our home grown sire Revolution he has a bit of extra frame size, extra length, good thickness with extra bone, tight sheath & large scrotal. He is a strong headed bull with soft, slick skin type. Near perfect structural scores with good temperament. High growth bull with 400 & 600 day weights & carcass weight in top 1% of the breed. added to this he has above average EMA & IMF with top 10% beef yield. The sort of bull that the industry needs to breed - high grading, high yielding, heavy offspring. Great commercial bull here.

Another good, commercially focused bull here by the great Paratrooper. There wont be too many more Paratrooper sons in the future as semen is in short supply. This bull is a typical Paratrooper son with thickness right through, good muscling, with extra length, clean hair type & tight sheath. Structural scores are very good with good temperament yet again. Once again he a commercially focussed bull with lower birth weight good growth all in the top 15% of the breed combined with carcass weight in top 3% & EMA in top 20%. Progeny will be born easily, grow quickly & weigh heavy. Another good commercial bull.

A bull with a different pedigree here by the Temate Roy New Zealand sire, out of one of our Millah Murrah donor cows we purchased in 2022 for \$42K. He is so thick & deep with a great skin & hair type. He has that extra spring of rib & very docile. Near perfect feet & leg scores & large scrotal. He has balanced data with moderate birth to top 13% for 400 & 600 day weights combined with well above average carcase weight, EMA & IMF. A top end commercial bull here that should breed thick, heavy progeny that will grade well to MSA. Nice bull.

First of the Autumn born 19 month old bulls here & this is one of the best straight up & by our home grown sire Revolution. We just love his extra length, extra thickness right through , tight sheath, large scrotal, clean hair type & his outstanding sires head. Structurally very sound & is puppy dog quiet. We had him on display at the world angus conference in Tamworth & proved to be one of the favourites. He has an excellent balance of data with calving ease, 400 day weight in Top 25% & 600 in the top 15%. Combine this with well above average carcase weight, EMA & IMF he puts it all together. We feel he has **STUD SIRE POTENTIAL** or top end commercial sire .

First of the bulls sired by the US Sire, Woodhill Comstock to sell. He offers genetic diversity in an extra thick, clean coated package with tight sheath & strong head. Structure & temperament scores are good. His data shows good early growth with well above average 200 & 400 day weights massive EMA EBV in top 1% & very high beef yield. He should breed early maturing, high yielding, heavy weaners to MSA standards.

One of our absolute favourites in the sale & liked by all who have inspected the bulls. He stands out every time you drive past his mob. By the \$260K Rocket Man sire he is very wide based, thick, deep flanked, clean skinned, tight sheathed with large scrotal. He has that strong head that spells out sire all over him. Very good structural scores & very docile. He has a very nicely balanced data set with calving ease, very moderate birth weight, above average 200, 400, 600 day weights & carcase weight. He has high feed efficiency, above average beef yield & around breed average IMF. Data suggests he **SHOULD SUIT HEIFERS OR COWS**. Excellent bull that should suit STUD DUTIES or top end commercial job. Make sure you inspect him.

Another one of our favourites here. A real powerhouse Prime Minister son with that huge capacity, weight for age, great hair type, good sheath & huge scrotal. He has that real sires head & outlook. Structural scores are near perfect & he has a great temperament. He is a high growth bull with 600 day growth in top 5% & 200 & 400 in top 15%. Above breed average carcase weight with EMA in top 12%, top 20% beef yield & high IMF in top 30%. Top 15% for Shearforce Tenderness. He has the type to make a STUD SIRE or very high end commercial bull. Great bull not to miss!

Great pedigree in this ET bull out of one of our very best donor cows that we purchased for \$80K from Millah Murrah in 2022. Photo of dam further in catalogue. His sire is the 240K Landfall Signature bull. Lot 31 combines the good type with very high end data. Hard to get this altogether in one bull. He has that added length but still with a strong topline. Being a young bull he still has some maturing to do but still has sire appeal. Good structural scores & very docile. Data is nearly off the charts with high calving ease, lower birth weight, well above average growth for all age categories, Carcase weight in top 20%, EMA in top 8%, Fats in top 15% & IMF in top 12%. Indexes in top 1%. **WOULD SUIT HEIFERS OR COWS.** STUD POSSIBILITIES or high end commercial sire to improve any herd.

The youngest bull in the sale with some maturing still to do. Great pedigree, he is a heifer's first calf by the US sire, Baldridge Command out of one of our donor cows. Although young he will mature into a good moderate , thick bull. He has a nice tidy sheath & great temperament. His data shows he is a high growth bull with 200, 400, 600 & carcass weights in the top 5% of the breed. Above average beef yield & IMF. Structurally very sound. Don't overlook him for his age as will be a good one when he matures.

A different pedigree here this bull is by the \$190K Knowla So Right bull. This bull is moderate but thick with clean hair type, tight sheath & large scrotal. Without sounding monotonous he has good structural scores & is quiet. That is the Ascot consistency coming through yet again. His data has him with moderate birth, well above growth & carcass weight & IMF in top 25%. He is a good, MSA focussed bull & will add profit to your program.

Top 1% EMA & IMF. Top 2% Shorter GL. Top 3% Scrotal. Top 8% Carcase wt. & Dom Index. Top 15% Milk & Rib Fat. Top 20% 200D & 600D Wts & Lower Birth wt. Top 25% 400D wt. One of the best bulls straight up here. A real feature of this years sale are the Ascot Septre sons. Septre was sold in 2023 to Loid Appleton for \$54,000, our previous stud charolais record selling bull. Septre instils thickness, softness & some of the best carcase & growth traits in the breed. Septre is the highest ranked bull in the breed for IMF. Lot 83 has all these good traits plus slick skin type, extra length, good bone, tight sheath, good scrotal & strong sires head. He is thick with great softness & positive fat EBVs. Exceptionally quiet with PERFECT STRUCTURAL SCORES. Hard to achieve this. Dam is an Eldorado daughter out of a Palgrove Estella donor cow. A combination of power & carcase traits in this good bull. STUD POTENTIAL. **HOMOZYGOUS POLLED**

Top 7% Rump fat. Top 10% 200D Wt. Rib fat & Scrotal. Top 25% 600D wt. First of the Palgrove Rockefeller sons to sell in this sale. We purchased Rockefeller in 2023 for \$100,000. This bull is thick, soft, deep flanked, with tight sheath & large scrotal. He has that clean hair type & strong sire's head. He has excellent structural scores & very docile. Balanced data with very positive fats. His dam is a 14 year old cow that has not missed a calf & has another calf on her now. STUD POTENTIAL or high end commercial.

Top 1% 200D & 600D wts,IMF.Top 2% 400D & Carcase wts & Dom Index.Top 8% EMA & Shorter GL.Top 20% Scrotal size & NM Index. What a standout Septre son here out of a Kudos cow! He is one of my picks in the sale. He is very much like his sire.He has that great, slick skin type, good length, extra thickness & wide based. He oozes softness, a trait we breed for. He has added bone, tight sheath & strong sire's head. Look at the tremendous growth & carcase data on this bull! Can't get much better than this.Near perfect structural scores. **HOMOZYGOUS POLLED**. STUD POTENTIAL & we will retain semen for in herd use.

Top 2% 600D wt.Top 4% NM Index. Top 10% 200D,400D & Carcase wts,Milk,Rump fat,Dom Index & Scrotal size. Top 15% IMF & Rib fat.Top 25% EMA. Red factor. Another of my absolute favourites here again. By the Ascot Recharge bull that we sold to Silverstone Charolais in WA.This bull has that great soft hair type, extra thickness, deep flanked,extra bone & added length .This positive fat bull oozes softness & is docile. Near perfect structural scores. An EBV data set you nearly can't improve on. A good PP bull with Type & Data! Gone are the days when some said you can't get the weight for age & grunt in **HOMOZYGOUS POLLED** bulls.We will retain semen for in herd use . STUD POTENTIAL. Great bull.

Top 1% Shorter GL. Top 2% EMA, Rump fat & Indexes. Top 4% Rib fat, Milk & Scrotal size. Top 5% Lower Birth wt. Top 10% 200D & Carcase wts, Calving ease. Top 15% 400D & 600D wts. One of the best bulls in the sale here!! By the Ascot Rockstar bull who has bred extremely well for us & from the potent Rebbly female line. He is extra soft, thick, long, clean skinned with a tight sheath, large scrotal & strong sire's head. He has near perfect structural scores & very docile. One of the best, balanced data sets in the sale, nearly can't improve on. A very useable bull as he has calving ease & lower birth weight combined with high end growth, carcase weight, EMA & fats. Data suggests he **SHOULD SUIT HEIFERS** & you won't lose anything on cows. **HOMOZYGOUS POLLED**. Will suit STUD DUTIES or high end commercial. Great bull.

Top 2% Scrotal size. Top 5% Rib & Rump fats. Top 10% EMA, 200D wt & NM Index. Top 25% Milk & 600D wt. First of the Ascot Regency sons & a good one. By a Rebby cow he has added length, strong topline, good softness, slick hair type, tight sheath & strong polled head. Very good structural scores. His data shows he has good growth & weight data combined with positive fats which means his progeny should grow quickly & finish easily to MSA. **HOMOZYGOUS POLLED**.

Top 3% Milk & Carcase wt. Top 5% 600D wt. Top 10% 200D, 400D wts, Scrotal & Indexes. Top 30% Rib & Rump fats. First of the yearling, 17 to 19 month olds bulls & this one is a beauty. He is extra long but maintaining the thickness & softness that we breed for. He has a bit of added frame, tight sheath, large scrotal, extra bone with strong polled head. A Red Factor bull by the ever consistent Lump Sum sire he has very good structural & temp scores. His EBV data shows he is a moderate birth weight, high weight for age & carcase weight bull with positive fats to balance it all up. He has slight bit of white on his head. An excellent commercial bull not to miss.

Top 1% Indexes. Top 3% Scrotal size. Top 5% 200D & 400D wts. Top 10% IMF, 600D & Carcase wts. Top 15% Shorter GL. Another bull by the US sire, LT Governor. We are very pleased with this first batch of his sons. This bull is soft & thick with tidy sheath, well developed scrotal for age and strong polled head. He has very good structural & temperament scores. A very balanced EBV data set with low birth, high growth & carcase weight combined with good EMA, fats & IMF make him an easy to use, MSA focussed bull that will add profitability to any operation. **HOMOZYGOUS POLLED**. Good all round bull.

Top 1% EMA. Top 3% IMF. Top 10% Retail Yield. Top 15% Milk & Dom Index. Extremely well bred younger bull here by the Septre bull & a natural calf from our matriarch donor cow, Rebbi who is 17 years old & has another calf on her now (her last). She is still robust with great structure & doing ability. We are continuing to flush her as she has that great longevity we are instilling into our herd. This bull should have in built longevity. He has good length, softness with clean hair type, good structure & very quiet. His data shows he has lower birth weight, above average 600 day growth, carcass weight, EMA & IMF. Don't overlook him as he is still to mature.

Top 5% Milk & Rump fat. Top 10% Rib fat & Shorter Gestation Length. Top 25% 400D, 600D & Carcase wts, Calving ease & NM Index. Back to the 2 year olds & another good one. Super pedigree with this good bull. His dam, Estella D870 is 17 years old. She was dam of Ascot Juggernaut one of the best bulls we have bred plus many others. Sire is the high selling Ascot Rockstar. He should have longevity built in. He has that added length, slightly later maturing & slightly larger frame size. He has a tight sheath, strong top line & strong polled head. Near perfect structure scores & very docile. A very balanced data set with lower birth weight, above average weight for age & carcase weight & high positive fats. Would suit any application. **HOMOZYGOUS POLLED.** Good bull.

Top 2% Rib & Rump fats. Top 10% 200D wt. Top 25% 400D & 600D wts I like to keep a special bull for last & this bull is no exception. He stands out every time you walk in his paddock. By the \$100K Rockefeller sire he oozes sire appeal with extra bone, strong topped with thickness & softness combined. He has a strong polled head & is quiet. Excellent structural scores. His data combines high weight for age with very positive fats. Should produce progeny that weigh heavy early with finishing ability. Great commercially focussed bull we like a lot.

cherish

women's cancer
foundation

Ascot Cattle Co are proud supporters of
Cherish Women's Cancer Foundation

Cherish Women's Cancer Foundation's primary goal is to fund clinical trials that result in better treatments for gynaecological cancers that can be developed and implemented. There are 1000 women in Queensland diagnosed with a gynaecological cancer every year in Australia – that's 1 in 23 women.

A third of these women will pass away from their cancer diagnosis and in this day and age, this just isn't good enough.

We need to find kinder ways to treat women – our wives, sisters, mothers and daughters deserve better.

Ascot will again donate the proceeds of one lot to Cherish.

The 1st Angus heifer to be offered as Lot 138 will be auctioned, and the proceeds being donated to Cherish.

HEIFERS LOT 138-203

ASCOT
CHAROLAIS & ANGUS

- All heifers have been 3 germ blooded to suit tick areas & vaccinated for 3 day sickness, 7in1 & Pestivirus
- All heifers have been independently assessed by Jim Green
- All heifers are being sold individually EXCEPT for Charolais LOTS 202 & 203 which will be sold as a pair (refer Lot info)
- All heifers are fully registered & breedplan recorded. Registration will be transferred to new owners if requested at no charge
- All heifers are being sold UNJOINED
- Guarantee: For any heifers within 12 months of the sale, that prove unable to conceive we will provide a credit at any future sales to the value of the purchase price less salvage costs. (Evidence must be shown of non-breeding with vet certificate & disposal details)

Purchaser: _____ Price: \$ _____

HOW TO GET THERE

ASCOT

Coming from Toowoomba

- From the New England Hwy at Allora, turn right into Allora Dve.
- Stay on this road through Allora continuing south towards Warwick for 15 km.
- North Toolburra is on your right

Navigating by GPS

- If navigating by GPS:
Enter 1123 Warwick-Allora Road,
Massie

Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
 2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
 3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
 4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
 - (a) Refuse to acknowledge any bid;
 - (b) Withdraw any lot or lots before or during the sale;
 - (c) Exclude any person from the auction venue should it think fit.
 5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
 6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
 7. In the event of any dispute in respect to the sale of any lot:-
 - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
 - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
 - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
 - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
 8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
 9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
 - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
 - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
 - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
 10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
 11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
 12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
 13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
 14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
 15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
 16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
 - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
 17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
 18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
 - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
 19. DELIVERY. Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
 20. In these Conditions:-
 - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
